Jim,

We have an older gentleman who shows up every few days to take pictures of the East Town project. No big deal usually. Now I wonder if it might be "John Adams". Will you run the plate number? [REDACTED] - Green Ford Ranger pickup truck.

Jim,  
I know [REDACTED] very well. He definitely is not John Adams. He is not a bother for taking pictures either. Just thought we should check it out. No pictures on the site as of lately. He now is into "you tube" cartoons.

Dean,

Good thought as I think that anyone we spot taking photos of City projects might be a possible suspect. In this case though the plate comes back to a [REDACTED] knows the guy and says that [REDACTED]. She doesn't know why he would be out taking photos of the East Town project, but she did not think him capable of being John Adams (of course it might be a person we least suspect). Let me know if the guy becomes a nuisance and maybe we can have an officer talk to him in order to find out what he might be up to.

Also, I have purposely been avoiding reading "Free Whitewater" so do you know if there have been any photos as of late?

Jim
